## REDS ANTI-REDS BATTLE IN GUATEMALA

### Council Votes To Endorse Tax Move

The Murray City Council met last night at 7:30 at the City Hall. Mostly routine business was handled by the council, with an ordinance being passed levying the tax rate for next year. The rate will remain the same.

The council voted to send Governor Wetherby a letter asking him to go on record endorsing his move to equalize assessments among the counties.

It was agreed that the lights at the tennis courts should be turned off at 11:00 p.m. by city police.

The council received two bids last night for fire hose. They had asked for bids for 1,000 feet of two and one-half inch hose and 200 feet of one and one-half inch hose.

The Bi-Lateral Fire Hose Company of Chicago won the bid over the Eureka Fire Hose Company.

Their bid was \$1.80 per foot for the two and one-half inch hose and \$1.30 per foot for the one and one-half inch hose. The bid of the Eureka Fire Hose Company for the same grade hose, double jacket Dacron filled hose, was \$1.25 per foot for the larger hose and \$1.25 for the smaller hose.

Attention was called by the council that many lots in the city were still grown up with weeds and that property owners will have to clean them.

It was agreed by the council that city auto stickers must be applied to the windshield by automobile owners. The penalty for not having the stickers started on June 15. An all out effort will be made by city police to get city stickers on all automobiles in the city starting July 1, however police are checking automobiles now.

### Will Treat Russians If They Can Find Them

ATLANTA, Ga. (AP) — City officials are planning to treat the carpet for any visiting foreign dignitaries, today planned to receive four sightseeing Russian Embassy officials "courteously" — if they can be found.

But the Russian diplomats touring the Southeast with U.S. State Department permission have been traveling so inconspicuously that Atlanta officials were not sure they would know when the guests are on hand.

Mayor William B. Hartsfield said the group, all members of the Russian Embassy at Washington, may have already come and gone, but he said no one was known to have recognized them here.

Atlanta was one of a dozen cities in nine states the diplomats were to visit on the 15 day auto trip begun on June 11.

The Russians making the trip are First Secretary Michael N. Smirnovsky, and Ivan N. Kuzin; Third Secretary Ivan P. Azarov and Lev D. Ilin, an embassy employee.

Other cities on their route included Louisville, Ky.; Cincinnati, Ohio, and Charleston, W. Va.

### Mo. Assessment Cases Are Heard

FRANKFORT, Mo. — Delegations from Magoffin, Edmonson and Perry counties yesterday argued their recent tentative blanket assessment increases were too high, in hearings before the State Tax Commission.

The representatives did not quarrel with action of the commission in raising their assessment rates, only about the amount of the rates. The groups presented evidence to back its claims.

The tax commission was expected to conclude the series of hearings Tuesday. After that, it will be up to Gov. Lawrence W. Wetherby to decide whether the proposed increases actually will be put into effect.

Wetherby last weekend threatened to call off the program because of the lack of public support. Since then, however, he has received dozens of telegrams daily urging that the re-assessment program be continued.

### New Tappan Stove Is Mentioned In Reader's Digest

A recent issue of the Reader's Digest carried an article taken from the Wall Street Journal that will be of interest in Murray. It concerned the Tappan Stove Company and a new electronic range being produced by the company in Mansfield, Ohio.

The article is as follows: **NEW YOU'RE COOKING WITH ELECTRONICS!** A cake bakes in three minutes. A baked potato is ready in five minutes. A 16 pound stuffed turkey needs only an hour, and a whole chicken dinner can be broiled on a paper plate with a paper napkin crumpled underneath to absorb the grease. There are no pots to wash, since food is cooked in the china dishes in which it is to be served.

All this is actually taking place in Mansfield, Ohio, where a dozen housewives are trying out the first electronic range designed for the home kitchen. Tappan Stove Co., after lab testing the range successfully for over 18 months, made the first home installation last March. The secret is a magnetron tube made by the Raytheon Manufacturing Co.; it transmits ultra-high frequency waves. The waves cause molecular agitation in the food — the same thing that heat does — only many times faster, and all the way through at once, instead of slowly from the outside in. Although the waves are somewhat similar to those which activate the picture of a UHF television set and the FCC has assigned a wave length for cooking use — the new stove won't interfere with picture reception.

The walls of the new oven always stay cool and the magnetron tube automatically shuts off as soon as the door is opened, so the cook can reach right into the oven and remove a sizzling steak on a platter without using hot pads. Users of the new stove, however, have to replace metal pots and pans with ones of ceramic or glass, which aren't affected by the rays. Metal pots designed to conduct heat and electricity would get even hotter than in regular ovens. Because they stay cool, the inside walls of the new ovens can be cleaned as quickly as the outside, with a wipe of a cloth.

How soon the range will be available for consumers generally is still a question. Tappan doesn't expect an immediate rush, since the first models are scheduled to sell for about \$200. But when the new range gets into quantity production the price should come down to \$100. The high price might be compensated by lower operating costs. An ordinary electric oven draws over 3000 watts, while the electronic stove needs only 750 for a fraction of the time.

### Anti-Communists Advance On Capital City; Force Grows

TEGUCIGALPA, Honduras, June 19. (AP) — An invading army led by anti-Communist Guatemalan exiles, striking by land, sea, and air, was reported moving steadily on Guatemala's capital city today and gathering strength as it advanced.

The official Guatemalan radio acknowledged before it went off the air at midnight that 12 planes had bombed Guatemala City, but claimed the only damage inflicted had been to the home of one of the rebel leaders and to the home of his mother.

In Guatemala City, foreign Minister Guillermo Toriello said at a press conference Friday "The war for Guatemala has started."

The anti-Communist forces, 5,000 strong, struck at both the Pacific and Caribbean ports, San Jose, main Pacific port, and Gueztanango and Zacapa inland.

An exiled Guatemalan leader in Mexico City said that "several" border cities fell quickly to the attackers which struck from neighboring Honduras.

Mac Bannell, reporting from Honduras for the National Broadcasting Company, also reported early successes for the exile forces.

He estimated the anti-Communist forces now hold about one-third of Guatemala. He also cited a report that two planes machine-gunned the presidential palace in Guatemala City.

Sea-borne rebel forces were reported to have sailed from Honduras' Hog Island in the Caribbean to aid the attack on Puerto Barrios, which was the reception point last month for 6-million dollars worth of ammunition shipped from Communist Poland to the Guatemalan government.

It was that shipment which touched off intense United States concern for the peace of Central America and had widespread international repercussions, including a U.S. request to seafaring European nations for permission to search their vessels on the high seas for Guatemalan arms.

**Bomb Gasoline Dumps**  
The uprising reported was led by Col. Carlos Castillo Armas, former chief of the Guatemalan Air Force and one-time comrade in arms with Guatemalan President Jacobo Arbenz.

Arbenz has been accused by the United States of being Communist-dominated if not actually Communist himself.

Arbenz and Armas cooperated in a revolution which ousted the military dictatorship of President Frederico Ponce in 1944.

Rebel planes struck at gasoline dumps in Puerto Barrios and San Jose. Bannell, in his report from Tegucigalpa this morning said the dumps still were burning—a serious blow to the Guatemalan Air Force.

Bannell also reported the fall of the rail city of Zacapa after stiff fighting and said local residents were joining the anti-Red invaders.

**Rebels Well Armed**  
Bannell said the invaders were well armed with bazookas, flamethrowers, and sidearms and said he had seen these weapons being loaded into planes at Tegucigalpa. He said the men were well dressed in khaki uniforms and were air-lifted to the Honduras-Guatemala border, 28 men and two nurses to a plane.

He said there had been at least 10 such flights Friday in a continuation of activity which has been going on for two weeks with no attempt at secrecy.

Radio broadcasts heard in San Salvador urged the people to stand "shoulder to shoulder" and be calm during the revolt, which was finally touched off by the shipment of arms to Guatemala from Iron Curtain countries.

Censored dispatches from Guatemala City earlier had reported a raid on the capital but the official radio broadcast was the first indication of the scope of the attack. Raids also were carried out against Puerto Barrios, the principal Guatemalan Caribbean port.

and reception point for 6-million dollars worth of ammunition shipped from Communist Poland last month, and San Jose, the main Pacific Ocean port.

**Several Cities Fall**  
An exiled Guatemalan leader in Mexico City reported that "several" cities on the border had fallen to a 5,000-man anti-Communist army which invaded from neighboring Honduras.

Guatemalan Foreign Minister Guillermo Toriello acknowledged the seriousness of the situation at a press conference in Guatemala City Friday.

"The war for Guatemala has started," Toriello said. "We are ready to accept the greatest sacrifices to defend Guatemalan sovereignty."

The invading forces were reported to be made up of Guatemalan exiles and political refugees led by Col. Carlos Castillo Armas, former chief of the Guatemalan Air Force.

Sea forces also were reported moving in.

Guatemalan military authorities said the raid on the capital was aimed at headquarters of the honor guard and the offices of the Army general staff in the capital.

The bombs missed their target, however, and fell on the homes of Col. Rodolfo Mendoza, one of the leaders of the anti-Communist Guatemalan exile forces and his mother, according to the officials.

**Calls For Support**  
Mendoza, a noted Guatemalan flier, was said to have flown over Guatemala City Friday during a pro-Arbenz mass rally and urged demonstrators by loudspeakers to join the anti-Communist movement. The government radio broadcast warnings to the armed forces to ignore Mendoza's appeal.

Guatemalan exile sources in San Salvador said an underground anti-Communist radio broadcast warnings of the impending air raid but assured the people "only military targets" will be attacked.

The raids on Puerto Barrios and San Jose were aimed at gasoline reserves. Informed sources in Washington said if the raids were successful the Guatemalan Air Force would be crippled.

Reports to the U.S. State Department in Washington said "serious uprisings" flared in Puerto Barrios, Gueztanango and Zacapa.

Toriello said that "North American companies especially the United Fruit Co. are supporting this movement to overthrow" in the Arbenz government. He charged also that the Nicaraguan government of President Anastasio Somoza had also "helped this attack."

"We have received expressions of support from all parts of the world," he said. He did not say whether these expressions came from the Communist nations.

### Mr. and Mrs. Dan Able Visit Here After Japan Tour

Mrs. Lee Maddox of Memphis, and Mr. and Mrs. Dan Able and three children Dee, Dan, and Judith from Yokohama, Japan were visiting in Murray Thursday. Mrs. Maddox is the mother of Mrs. Able.

The visitors had lunch Thursday with Mr. and Mrs. Melius Linn. Mrs. Linn is the aunt of Mrs. Able.

Mr. Able has worked with the Baptist Missionaries in Japan for the past ten years. He has taken many pictures of Japan in the cities of Tokyo, Yokohama, ports and army air fields.

He showed the pictures at the home of Mrs. Linn before the family and several neighbors.

The family came to Murray through Alaska and Salt Lake City. They returned to Memphis where they will visit other relatives.

## CONGRATULATIONS IN ORDER

We wish to extend our congratulations to the young people of Calloway County who won honors at the recent Future Farmers of America and Future Homemakers of America conventions in Louisville and Lexington.

These two organizations in the county produce fine young men and women and develop a sense of responsibility that will aid their progress for the rest of their lives.

We were particularly pleased to see the outstanding ability and quality of leadership in James Outland recognized, by his being elected as vice-president of the Kentucky Association of Future Farmers.

With agriculture represented by such young men as he, its prestige will certainly rise.

We have followed the high school career of James Outland with interest, and have noticed with pleasure that he has not missed an opportunity to accept responsibility.

He has been president of his chapter for the past two years and has entered competition in several fields including public speaking.

He spoke before the Rotary Club recently and delivered as level an address as we have heard recently with as much composure as a college president.

"Book Learning" is all right, but the FFA and the FHA go farther than that. They put what a boy or girl has learned, to practice. They emerge from their training as responsible individuals ready to take the floor to express their opinions.

We are fortunate to have in Calloway County chapter advisors who take the effort to bring out the best in their students.

## WHAT GOOD DOES IT DO?

When the McCarthy-Army investigation started we stated it would amount to no more than washing dirty linen in public with the use of such a modern device as television to bring it right into the living room of the people.

We stated further that if the charges made even then proved true somebody should be sent to the penitentiary. The original charges were mild when compared with those which have been developed in the heat of passion since the hearings started.

Tuesday's charges cap the climax. The Wisconsin Senator presented five counts of "treason" against the former Truman Administration, and two additional ones were developed as a result of questions and answers covering the first five.

The five charges had to do with prolonging the Korean War, and the terrible increase in casualties. If an officer, or officers, of the United States civil or military establishments deliberately prolonged the war and caused men to suffer and die they should receive the same fate as the Rosenbergs.

In reading the charges, which began with the recall of Douglas MacArthur, most folks will probably agree with McCarthy that the Korean War, from start to finish, was a "comedy of errors."

There are not many, however, who will go so far as to believe there was anything sinister about these errors. We do not share McCarthy's apparent belief that former President Truman, and his Secretary of State Dean Acheson, wanted the Communists to win, and that they created ammunition shortages, blockaded Formosa, and took other drastic steps to assure a Communist victory over our troops. If there were many who shared his belief we would probably have a state of anarchy in this country even now.

We do believe that the mistakes made by the Truman Administration were the most costly in the history of the nation, both in lives and wealth. He spent more money than the late President Franklin D. Roosevelt, and there is no denying the fact that he committed more radical acts than all of those who served as President from the time of George Washington, including the decision to use the atomic bomb on Japan and the recall of a Commanding General during the heat of battle.

If there were any trusted advisers, on the order of Alger Hiss or Harry Dexter White, who caused Mr. Truman to commit acts that a United States Senator now charges as treasonable, surely he should be exposed, tried, convicted and executed. That should be done if it cost the life of only one American boy.

If that can't be done what's the use of smearing the Truman Administration? The voters repudiated it in 1952 because of its mistakes, such as the ones McCarthy brought up yesterday. It does no good to label these mistakes as "treason" unless he is in position to prove it. It just heightens confusion and raises the blood-pressure of the American people at a time when we should be using reason and deliberate planning to face the growing threat of International Communism.

## No "Rabbit Balls" In Ball Today Says League Head

By CARL LUNDQUIST

United Press Sports Writer  
National League President Warren Giles insisted today that a seven hit win by a "rabbit ball" and batters in both leagues demonstrated that he must know what he's talking about.

At least Friday night, if there were any "rabbit balls" around they must have been pretty well hidden. For it was strictly an evening for the pitchers.

Giles said that "I am sure no change in the official ball has been authorized by the major leagues for many years" and that the theory of the "jackrabbit" under the horsehide was strictly a myth.

No sooner had he spoken when there was a three hitter turned in by Vernon Law of the Pirates, four hitters by Mike Garcia of Cleveland, Arnold Portocarrero of the Athletics, and Harvey Haddix of the Cardinals, a five batter by Don Newcombe of the Dodgers and a six by Bill Bruton of the Braves.

Law outpitched Spain and also drove in the winning run in the sixth. Both teams went scoreless until the eighth when the Pirates broke the ice. Milwaukee tied it in the ninth when Bill Bruton scored from second on Hank Aaron's sacrifice fly. It was Law's sixth victory and Spain's sixth defeat.

Haddix pitched his third straight shutout and his ninth victory, 5-0 for the Cards over the Braves.

## Ronnie Hampton Wins Top Honor In State Contest

Ronnie Hampton, Hazel Future Farmer won top honor for the Hazel Chapter in the State FFA contest, which is being held in Louisville, June 14 thru 16. He was winner in the FFA Day contest in the Purchase District which was held in Murray, April 10.

Ronnie is the son of Brother and Mrs. M. M. Hampton of Hazel. Brother Hampton has been the pastor of the Hazel Baptist Church since 1951. Ronnie has two brothers, both being in service. Connie is in the Air Force, stationed in England and Bill is a Lt. in the Army.

Ronnie is beginning his second year in vocational agriculture. Even though agriculture is new to Ronnie, he is very interested in it. He probably has one of the most unusual projects in the organization. Being unable to carry on a farming program on a farm, he planned a project with parakeets.

Ronnie started in October 1953, with three pairs of birds. At the present time he has nine pairs and has sold one bird. He has been keeping the birds in the utility room, but in the future he plans to build an outside room. Ronnie believes he can make \$300 a year from this project and increase his score at the same time.

Ronnie is a member of the Hazel Baptist Church and is an associate pianist. He also plays the Hammond Organ. He has been studying music under the direction of Mrs. Lillian Walters of Murray for the past nine years. He plans to continue his study in agriculture as long as it is possible. He says, "It is new and very hopeful to youth."

## SEA PLEADS WITH ISRAEL

Hosea 6:1-11

Hosea was a prophet of the northern Kingdom in the closing years of Israel's independence. The message of this prophet of love is essentially the same as that of Amos, while his manner and rhod were in sharp contrast to that of the prophet of Tekoa. Heartbroken over the sins of his people, Hosea delivered God's message to them, even though they did little or no concern about spiritual matters. In his prophecy he read about his marriage to a woman and the black tragedy of their home life. Instead of sharing the purposes of her patriotic and eddy husband, Gomer, gave herself to the gay life of her day. The finally deserted Hosea and her children and became a prostitute in the temple of Baal. Finally, she was offered for sale in the open slave market. Hating her glaring sin, Hosea loved her still and bought her at public auction. His tragic experience taught, the prophet that his own pity and love for Gomer constituted a faint similitude of the yearning love of God for His erring people, who had not kept their pledged truth.

Hosea summoned the people of Israel to appear at God's tribunal. They had covenanted to be His people and He had covenanted to be their God. They had broken their covenant and had practically excluded Him from their thoughts. They closed their eyes to the truth and refused to be taught. They

were averse to knowing God's will because they wanted their own way. They were proud, unstable, worldly, corrupt, ungodly and idolatrous. A calamity was inevitable for these stupid people, who had drifted thoughtlessly into ease, extravagance and debauchery. Moreover, the time serving priests were unfaithful to their trust and allowed the people to perish for lack of knowledge. So far had they strayed from their functions as moral teachers that they connived at, if they did not directly foster, the sinfulness of the people.

## I. The Request. Hosea 6:1-3.

With tender insight and sympathetic approach, Hosea laid bare the sins of the people. Sins that were so terrible and so persistent that God was compelled to withdraw His presence from them. Their sins had broken their fellowship with God, and forced Him to leave them to their own devices and to eat the fruit of their own doings. The people had thought that other nations might help them. They had even recognized idols when all the time they should have been putting their trust in God alone. And they knew better! Of course, God was grieved because they acted that way!

Hosea cried, "Come, and let us return unto the Lord." In his request he expressed the conviction that true repentance would lead to three things: 1. Restoration. "He will heal us" (6:1). 2. Revival. "After two days will He revive us" (6:2). 3. Resurrection. "In the third day He will raise us up" (6:3). God's loving heart always yearns after wayward men. Though they have turned from Him in backsliding, yet He sends his messenger to convey His gracious invitation. No more beautiful word can be spoken than "Come." It speaks of an open door, of a forgiving spirit, and of a desire for renewed fellowship.

Hosea appealed to wayward, rebellious Israel to return unto God who, having punished them because of their transgressions, "would in the hour of their sincere repentance heal their wounds, raise them up from their state of death and bestow such a spiritual refreshing upon them as could be compared with the renewal of the earth caused by much needed showers of rain. Have you ever seen the dry earth drinking in the refreshing showers that descend at the end of a blistering hot day? This is what the grace of God is like to the tired soul that, sick of its sin, turns its weary steps toward Him.

## II. The Response. Hosea 6:4-11.

After fully reviewing their iniquities and the results that were certain to follow, God through His prophet gave His promise to the people that, if they would return to Him with confession and the forsaking of their sins, He would receive them. He also would heal their backsliding and restore them to His tender care and full protection. There would not be any limits to His love for them or His gracious dealings with them. Once their sins were forsaken, His anger would not be felt by them, because it was against their sins rather than them.

Addressed to Ephraim as the entire kingdom of Israel, God responded by speaking through His prophet. Hosea, of the sad conditions which prevailed in their midst. We note the startling interjection of the agonized heart of God sobbing in the grief of His spurned love, "O Ephraim, what shall I do unto thee? O Judah, what shall I do unto thee? for your goodness is as a morning cloud, and as the early dew it goeth away." In other words, said He, your goodness is far too evanescent.

With patience He continually bore with them and diligently sought to arrest them in their downward course and to restore them to His fellowship. He was grieved deeply, because their religious leaders were so degraded. What He wanted, and had a perfect right to expect from them, was genuine love, complete surrender and faithful obedience. He longed for piety of life on their part instead of their numerous and meaningless sacrifices which they gladly offered with a view to averting punishment.

## THE OLD GRIND

BUFFALO, N. Y. Heavy cardboard prevents friction between wheels. Previously grinding wheels were shipped lying flat on top of one another.

# THE TRUTH comes home.. to the Family

## Your Newspaper Brings You The Facts That Safeguard Your Freedom Of Choice

As an American, you are free to think, choose and act for yourself. But, unless you also had the right to know the truth, these precious freedoms would immediately become meaningless and soon disappear. The right to know is fundamental to democracy. It is guaranteed to you by the First Article of the Bill of Rights, which established a free press. It is predicated upon the faith of the founders in the wisdom of the people . . . provided they have the facts. To bring the truth right into your family circle is the purpose of your newspaper. It tells you what is going on across the world . . . and across the street! Without fear or favor, it gives you authentic facts which you must have if you are to think, choose and act in the best interests of your family, your community, your country. Freedom of the press is primarily the freedom of all the people to know all the facts. It is the basic freedom upon which all other freedoms depend . . . without which, none could long endure.

In its advertising as well as its news columns, your newspaper helps you to exercise your American freedom of choice wisely and well. Every advertisement it prints is a bid for your favor . . . presents the facts you need in order to decide what to buy and from whom . . . all with a view of making every dollar you spend contribute the greatest measure of satisfaction to your family and yourself.

### Cherry Corner News

JUNE 17, 1954

Canning time is here again and if the rains continue as they have, shelves will be filled again in our homes. Some have already picked dew berries for jellies and jams and some have made kraut and canned early greens, turnip greens, mustard and polk.

As scarce as everything was last year, I managed (by the help of neighbors) to get nearly two hundred cans filled. The fifty cans of vegetable soup mixture that I made of the little cherry tomatoes that Mrs. Hodges helped me pick from her garden surely did go good. They were just like picking dew berries. The carrots, corn, butter beans, peas, cabbage and onions added to the tomatoes made a full meal all in one dish. No, I didn't peel the tomatoes with a knife; cooked them and run them through a sifter.

It is a lot easier to eat things after they are canned than it is to fix them and can; but we always enjoy doing that if it is work. Our first squashes from our garden were good yesterday. I think I will have some to can if it rains again soon.

Mrs. Otto Farris spent last week in Hazel Park, Mich., visiting Mr. and Mrs. Paul Griffin and other relatives and friends.

Mr. and Mrs. Ofus Outland were visitors of Mr. and Mrs. Beaton Fitts and David, Monday evening. Largest squash vines I have seen are at Mrs. Beaton Fitts.

The WMS of the Cherry Church met at the church, Tuesday afternoon for the Royal Service program. Mrs. Lon Outland was leader and Mrs. Cassel Garrison gave the devotional thoughts.

Mr. and Mrs. Charlie Bucy of the Concord Highway have moved to Murray.

Mrs. Zora Hendon is spending a month in Oklahoma with a daughter, Mr. and Mrs. Guy Edmonds and other relatives.

Dale Outland and Will T. Winchester worked all day Saturday on Dale's car trying to put in a new clutch, but their work wasn't successful and Dale's dad went and got a trained mechanic, a Mr. Cunningham, to redo their work.

Mistakes will happen sometimes. If all my mistakes were dollar bills, I would be a millionaire. How about you? If they were stones piled up — they would be a mountain, not a hill.

Weddings LocalsToday's Frozen Foods  
Mean More Easier Job  
For The Busy Wives

By CLARE CON  
United Press Staff Correspondent  
NEW YORK (AP)—Housewives all over the nation are thawing out dinner, instead of cooking it.

The consumption of frozen foods—frozen whole chickens, frozen dinners on disposable plates—is growing so rapidly that frozen dinners soon may replace frozen fish as a kitchen hazard.

Last year for example, nearly \$500,000,000 pounds of frozen food were processed. This included every-day dishes like mashed potatoes, peas and carrots, end ham-burgers; but there also were pink lemonade, caviar, hors d'oeuvres, french toast and soup—just like mother's.

Southerners now can buy frozen crockneck squash, collard, mustard and turnip greens andokra out of season. Young housewives afraid to try their hands at fancy desserts can thaw out delicious eclairs and cheese or chocolate cake.

Or a homemaker can go global in her tastes with German fish fillets, Danish trout, Pakistani turtle meat, Colombian and Peruvian shrimp, breaded fish sticks cooked in England, and smoked Scotch kipper.

With married women holding more than half the 19,000,000 jobs held by women and television becoming more popular every day, the Frozen Food Institute believes it has a gold mine in its quickly prepared dinners.

These include a turkey dinner for four, which can be thawed out and served between television programs. There's even a pot of butter on each slab of sweet potato in the package and frozen sliced tomatoes in the salad.

Chicken in parts for trying or broiling has been on the market for a long time, but the institute's spokesmen pointed to something new, frozen chicken parts for soup—necks, wings, backs, gizzards and hearts.

Tuna fish pot pie is one of the latest frozen foods, and there also are wall-eyed pike, buttered beef-steak, pan-dressed catfish and frigate.

## Webb-Murdock Wedding Vows Read

Mrs. Alfred Hugh Murdock

Mr. Johnnie Webb of Lynnville has announced the marriage of his daughter, Mavis Dean, to Mr. Alfred Hugh Murdock, son of Mr. and Mrs. B. W. Murdock of Lynn Grove.

The single ring ceremony was solemnized on Saturday, May 29, at ten-fifty-five o'clock in the morning by the Rev. Hill, Baptist minister, at Corinth, Miss.

Attending the couple were Miss Gerelene Webb, sister of the bride, and Mr. Audrey Newsome.

The couple is now at home on Murray Route One.

Legs fresh from Japan. Served with frozen eggplant parmesan, any of these is enough for a meal, especially with thawed out uncooked frozen ham and non-fattening frozen whipped cream as a topping for the ice cream dessert.

Backstairs At The  
White HouseBy MERRIMAN SMITH  
United Press White House Writer

WASHINGTON (AP)—Backstairs at the White House:  
An out of town housewife, touring the White House recently, stopped to gaze in wonder at one of the huge Irish crystal chandeliers on the main floor of the executive mansion.

"I don't see how in the world they can get it in a dishpan," she said to the tourists standing near

by. She was quite right. They couldn't get it in a dishpan, or for that matter, in a bathtub. The big chandeliers must be cleaned by hand by prism.

The search for the bodies of the five men from Illinois who were drowned in the worst tragedy ever in the Kentucky Dam area was completed Sunday when they were recovered from the waters below the dam.

The Bronze Star medal for gallantry in action was awarded to William Herbert Thurman of Nashville, Tenn., Monday morning at the Nashville Reserve Armory. He is the son of Mrs. Perry Thurman of Murray.

Mr. Preston Holland has recently been appointed supervisor of the City of Murray Park.

Mr. and Mrs. Thomas Bell who have been residing in Gainesville, Fla., are visiting Mrs. Bell's parents, Mr. and Mrs. Fleetwood Crouch. The Bells will leave soon for Dayton, Ohio, where he has accepted a position.

A steepjack, Houston Herndon, was taken to a hospital Saturday when the 276 foot transmitter of a Paris, Tenn., radio station fell as he was making repairs. Witnesses said that the man rode guide wires 70 feet to the ground which prevented almost sure death.

A neat 5 inning relief pitching performance by Junior Cunningham of Fulton highlighted Sunday afternoon play in the Kitty League.

**FORGETFUL  
HUSBAND**

We hate to mention it, but do you realize you still haven't bought her that ring? That big, beautiful diamond you promised yourself you'd get her—someday when you could afford it. And just look how long ago that was!

Fortunately, it's nev-
